

School Transportation

Bus Transportation

- For the past nine years, Garden School has owned and operated a fleet of five 19-passenger, heated and air-conditioned, GMAC school buses to transport students to and from school.

Our price structure is based on zones and the distance from the school. The exact charge will be determined as routes are set up. The fee for transportation is included on tuition statements and paid in accordance with your current payment plan.

The buses leave after school at approximately 3:00 pm. There is also a “late bus” at 5:00 pm for students wishing to remain at school for extra help or to participate in sports, music, foundations classes or the general after school program.

There are a limited number of seats and a significant number of families that express interest in bus transportation. Please contact Ms. Maisano, mmaisano@gardenschool.org, as soon as possible in the Business Office to secure seat(s).

Metrocards

- New Garden students, students taking public transportation who have not previously applied for a Metrocard, and students who have changed addresses since the last school year should complete the application below. Forms should be returned to the Main Office as soon as possible to avoid delays.

Metrocard Application

Name _____ Grade _____

Address _____

_____ Zip Code _____

Date of birth _____ Male _____ Female _____
